

Entry to Crypto: Quick Start Guide

1. Buy Crypto

Use Coinbase - A beginner-friendly platform to buy and store crypto.

- Sign up at <https://www.coinbase.com/>
- Verify identity & link a payment method
- Buy Solana (SOL) or Ethereum (ETH) for transactions

2. Set Up a Wallet

Use a Secure Crypto Wallet to Store & Trade

- Phantom - Best for Solana-based tokens
- Core - Secure & simple self-custody
- MetaMask - Best for Ethereum & ERC-20 tokens
- Download from official sites & write down your seed phrase!

3. Transfer Crypto to Your Wallet

Move your crypto from Coinbase to your wallet

- Copy your wallet address from Phantom, Core, or MetaMask
- In Coinbase, select 'Send' & paste your wallet address
- Confirm & wait for the transfer to complete

4. Stay Safe

- NEVER share your seed phrase
- Enable Two-Factor Authentication (2FA)
- Double-check links to avoid phishing scams
- Use a hardware wallet (e.g., Ledger) for extra security
